Experience

Web Design Programmer Analyst

MARION COUNTY PUBLIC SCHOOLS

Sep 2023 - Present (5 months)

Primary analyst in coding and developing websites using approved applications for marion.k12.fl.us web site and hosted domains.

Conduct routine software audits of web services infrastructure (servers) for compliance with established standards, policies, procedures and configuration guidelines.

Responsible for security and intrusion prevention for all web services infrastructure devices.

Take the lead in troubleshooting complex web design, coordinating the involvement of other MCPS Technologies, Technology and Information Systems

Frontend Web Developer

Fast Business Sites

Jan 2022 - Present (2 years 1 month)

I create fast, stunning websites for small businesses. Check out some of what I've done!

Recent Examples:

https://tindalepestcontrol.com

https://slrhealthsolutions.com

https://dirtydryers.com

Computer Programmer

MARION COUNTY PUBLIC SCHOOLS

Aug 2022 - Sep 2023 (1 year 2 months)
I develop, test, debug, analyze, escalate and maintain new and existing software applications at Marion County Public Schools.

Designed and developed responsive and accessible websites for schools using HTML, CSS, and JavaScript.

Collaborated with stakeholders to understand their needs and deliver user-friendly and engaging web experiences.

Converted and updated PDF documents to ensure compliance with web accessibility standards.

Wrote and modified SQL scripts to automate data extraction and reporting for school performance metrics.

Jr Web Developer
Geeky Interactive
Nov 2021 - Jan 2022 (3 months)
Helped developed the front-end side of an online HR platform using ReactJS.
